NEWS ABOUT CLUBS AND PLAYERS

PERCIAL TELEGRAM TO THE DISPATOR. CHICAGO, May 10 .- Big yellow sulphurous looking clouds were stacked up in the west and north when the Chicago and Pittsburg teams came out upon the field this afternoon. The heat was oppressive. There was a breeze from the west, but it was the same old sirocco that has been blowing over Chicago for the last five days.

The game, which was a remarkable one so long as it lasted, was begun in a dead calm. Forty-five minutes later it was broken up by a furious storm of wind, rain, hail, lightning and thunder. Perhaps the terrific cannonading of the Chicagos drew the yellow clouds over the city. It was heavy enough to draw most anything. For half an hour the home howitzer and mortars kept up a furious fusillade against the brick wall. Then the storm burst in all its fury and

spectators and players had to run for their lives. The first inning passed without incident Anson opened the second with a terrific drive to the left field for two bases. Pfeffer got his base on balls and then both runners were advanced a base by a wild pitch. Farrell rapped a single over Smith's head, and Anson and Pfeffer scored. Farrell then tried to steal second and was caught. Burns followed with a single, and old Silver Flint reached first on a wild throw by Smith.

GUMBERT WAS CHEERED.

Gumbert, who made such a tremendous hit in the second game, now came to bat. He was loudly cheered. With a mighty sweep of his corn colored club he caught the ball on the stitches and sent it flying to the farther end of the grounds, driving Burns and Flint over the plate ahead of him. Ryan followed with a single, but was thrown out while trying to steal second. Van Haltren retired the side with a long fly to Hanlon.

The Chicagos shut the doors on the Pitts-

burgers in their half of the inning, the feature of the fielding being a lightning double play by Pfeffer and Anson. Staley must have been pitching a ball as big as a custard pie, for everybody took a crack at it. The first thing Duffy did in the third was to knock the upper crust off, when he dropped the ball over the Harrison street wall for a homer. Then old Ans, with a face leaking from his exertion in the deadly heat, lifted the plate and what was left of the pie over the Congress street wall for another home run. Pfeffer got his base on balls, stole second and scored on Film's single to

The visitors went out in order in their balf of the inning. The clouds were now hanging low and there were flashes of lightning in the North. The Pittsburg men began to play for rain. They moved about the field with grave deliberation and cast anxious glances at the sky. Staley went into the cupboard and brought out another pie. He passed it down to the plate where Ryan stood. The shortstop tore both crusts off and sent the filling against the parches and stooms in Harrison street. Staley now began to take his time. The thunder was rumbling and the sparrows were chirping in a frightened way. The Chicagos, on the other hand, were nervous and excited. They wanted to clinch their victory before the storm came. Van Haltren struck out as fast as he could. This made Staley mad. He began to pitch the wildest balls he knew how in order to fill the bases and keep the side from going out. Um-

for his strategy. Then Duffy struck out. Anson, however, was out for all there was in it and made a swipe for two bases. The Pitteburg fielders did not care about fielding the old man out, so he scored on a combination of errors by Kuehne and Miller. Pfeffer retired the side with a ground ball to Smith.

For Pittsburg Carroll got his base by being hit by a pitched ball. Dunlap followed with a single, and after Miller and Kuehne had been retired "Pop" Smith cleared the bases with a high driver over the left field fence for a home run. Farrell got as far as third base for Chi-cago in the fifth inning. For Pittsburg Sunday made a clean drive to right. Hanlon's fly was caught by Duffy. Then Beckley sent a turious grounder to Anson, who fumbled it, the runner

reaching first.

Then the rain, which the visitors had longed for, began to fall. It came down in big drops and drove everybody to cover. Captain Anson looked worried. He was out of humor. It looked as though the game would have to be

IT FAIRED UP TOO SOON. For ten minutes the rain fell furiously. Then the clouds drifted away and the game was resumed against the protest of Captain Dunlap, who declared that rain was still falling. Carroll made a safe hit filling the bases. Dunlap popped up a short fly to Farrell and Miller retired his sid# without a run, with a little fly to Gumhaet.

Gumbert.

The Chicagos had just finished the sixth inning without scoring when the storm burst with terrible fury. The wind tore the championship flag from the Congress street pole and shattered the flagstaff at the club house. The horses hitched to the posts at the farther end of the ground became unmanagable in the roar of the storm and ran in every direction. One cab and a buggy were wrecked inside the grounds while three cabs were overturned and shattered in Congress street. Bain and hall fell in blinding sheets. The grand stand rocked in the gale, spectators in the private boyes accumbled downstains the best was they boxes scrambled downstairs the best way they knew how, some of them narrowing escaping being blown down. The wind scooped the mud out of Loomis street and plastered it over the stand. For three minutes the storm raged with terrific violence. Then it caused, but the

Harry Wright's Case. A morning paper announced yesterday that Manager Wright was only manager in name and that he had not signed a contract for the season. "Yes, it is true, I have not signed a contract for the present season, but what does that signify " said Mr. Wright to a Press rethat signify " said Mr. Wright to a Press re-porter. "My last contract was signed three years ago, and it gave the Philadelphia club and myself the right to renew or cancel it at its expiration. We both agreed on terms, and it was not necessary for me to sign a new con-tract, as the old one stipulated that my assum-ing the management was to be considered con-clusive evidence of my desire to remain another year."

"Besides," continued the veteran, "I have been in the employ of Messrs. Reach and Rogers for the past five years, and with me the word of either is as good as his bond. I am manager, absolute, and am interfered with in no way."

A GOOD GAME EXPECTED.

Speculation as to To-day's Meeting of the McKeesports and Athletics.

The game at Liberty Park to-day between the East End Athletics and the McKeesport Club is exciting a great deal of interest, and a great deal of speculation is rife as to who will be the probable victor in the contest. Both Jeweler, of 30 and 32 Fifth ave. Some of the clubs are very evenly matched, and neither of them has been defeated this season, in fact they have had regular picules at the expense of their opponents so far. Manager Torreyson's team has the advantage of being composed of men who have nearly all had some professional experience, and the majority of his team would all have probably been playing in some of the minor leagues this season, had he not made it worth their while to remain in McKeesport and play in the County league.

The chief difficulty the McKeesport team has experienced so far, according to the public of playing the contributor. clubs are very evenly matched, and neither of most beautiful onyx clocks ever seen in this

McKeesport, has been the difficulty to get a team strong enough to give Torreyson's sluggers a good game. On the other hand the East End Athletics is a team composed of young men who do not receive any renumeration for their services, but are in the field for the fun of the thing. Manager Edwards, however, han a great deal of confidence in his material, and will present his strongest nine this afternoon, and the cutlook is that there will be a very close game of ball as Liberty Park. SCRANTON, PA., May 10 .- A prize fight be tween Louis Jester, of Wilkesbarre, and Harry Umlab, of New York, for \$500 a side and a purse of \$500, took place at Falls, Wyoming county, this morning, shortly after 8 o'clock. It was won in the tenth round by Jester on a foul.

Jester, who was the lighter man, had the best of the fight from the start, knocking Umlah down in nearly every round. The latter got first blood in the fourth round. The fight was one of the most spirited ever conducted in this region. William Oldfield, of Nanticoke, was the referee.

A BAKER'S DOZEN,

That's the Number of Peds in the New York Race.

**New York, May 16.—Only a baker's dozen of the walkers still remain in the race at Madison Square Garden. Connors has not been walking since 5 a. M., and will probably not resume. Herry has increased his lead over Cartwright by several miles since 2 o'clock this morning, and looks as fresh as ever, while Cartwright still appears to be suffering woeffully from want of sleep. Taylor, the Vermont pedestrian, still goes about the track in his historic lime trousers, but is now the last man in the race. Hegelman and Noremac, in third and fourth places, are running very evenly, there being but a few laps between them. From pressure appearance the race is in all probability Herty's.

LONDON, May 10.—This was the first day of the Kempton Park spring meeting. The race for the Kempton Park Great Jubilee Stakes, a for the Kempton Park Great Jubilee Stakes, a handicap of 3,000 guineas, the second to receive 200 sovereigns and the third 100 sovereigns out of the stakes, for 3-year-olds and upward, winning senalties, one mile, was won by General Byrne's 3-year-old chestaut colt Amphion, by Speculum or Reseberry, out of Suicide. Lord Cholmondelay's 3-year-old bay or brown colt Screech Owl, by Wisdom, out of Noisy, was second, and Mr. J. O'Neill's 5-year-old chestaut horse The Rejected, by King of Trumps, out of Accepted, third. There were 16 starters.

He Was a Ringer. "Captain Roll," the trotter that appeared at the Exposition track last year, has been de-ciared a "ringer." The horse, and Thomas Cameron, of Marion, Ind.; C. McBride and Foster Wick, of Butler, have been expelled. The horse was discovered to be Foster, owned in Marion. At the time of the race The Dis-parch intimated the horse was a "ringer."

During a conversation yesterday afternoon Gaptain S. S. Brown, the well-known local horseman, said that he saw Spekane, the winner of Thursday's derby, run last year and thought him a good horse. The Captain preferred to know a little more about the drain of the derby race before expressing at opinion about it He has no recent information regarding his can stables.

M'LAUGHLIN REINSTATED. The Pumous Jockey Exonerated and Highly

Praised at Nashville.

Nashville, Tenne, May in.—After the first race at Westeide Park today, General W. H. Jackson, one of the judges, announced their final decision in the matter of the McLaughlin episode of yesterday. He stated that the notion of the judges yesterday in declaring all bets off and ruling McLaughlin and Terra Cotta off the track, was the only course open for them in view of the fact that Terra Cotta was pulled when it was apparent that he could for them in view of the fact that Terra Cotta was pulled when it was apparent that he could have won. But upon more extended investigation it was found that Terra Cotta was pulled under instructions from the proprietors of the stable to allow Sanalene (Terra Cotta stable companion) to win in accordance with racing rules and customs, and this, with the previous good character, honesty and unimpeachable integrity of Jockey McLaughlin, and the further evidence that there was no intention of fraud on the part of McLaughlin, led the Judges to declare McLaughlin and Terra Cotta reinstated and to exonerate the proprietors of the Chicago stable from all blame.

General Jackson's allusions to the high character of McLaughlin brought out shouts of approval from the crowd. Santalene was given second money and Terra Cotta third.

NEW YORK, May 2.-Charley Johnson ha all but decided upon training quarters for John L. Suilivan, and the probability is that the

Quarter Champion. sing with Horace Brown the day I found that he thinks if any trotter living can speed a quarter in 30 seconds Guy is probably the one to do it. Horace drove Clingstone against Guy at Hornellsville, N. Y., exposition races last August, where they trotted for a special purse, Guy proving the winner in 2:23 and 2:21%. Horace said: "In one of these heats I had a good deal the best of the send-off, and sent Clingstone away boiling, making the pace very hot around the turn, but Guy came to may very fact and awars by in a registration."

sent clinications away boling, masing allegace very hot around the turn, but Guy came to me very fast, and swept by in a twinkling, although almost to the outside rail, and you know what difference that makes on a half-mile track. I never found a horse of anything like relative speed go by as fast as Guy passed Olingstone, and yet Cling was full of trôt that day." This opinion, coming from the man who drove Belle Hamiin a half in 1522's should carry considerable weight when people are looking for the next record breaker. But it should be borne in mind that to get the very fastest mile from a horse it is necessary to keep him out of heat races, and prepare him specially for single tilts against the watch. To this day it is a debatable question among horsemen whether the fastest mile Jay-Eye-See was capable of giving was ever obtained, for the season he trotted in 2:10 he was shipped here and there, and sent heats over all sorts of tracks for gate money. Therefore it is contended by many persons that if he had been taken to such a track as Cleveland and kept there for the single purpose of making a shining mark, Maud S might have had but one instead of three miles to her credit better than his measure.—Horseman.

NEW YORK, May 10,-Earl Dunraven's letter regarding his objections to the New York Yacht Club's action is expected on the Servia Sunday. Commodore Smith, Chairman of the Sunday. Commodore Smith, Chairman of the committee, says that he expects the Earl's letter will put all doubt about the race at an end. Nathaniel C, Moore, of Baitimore, will present a design to the New York Club for a yacht to compete with the Valkyrie. The center board is embraced and the rig will be that of a sloop. There is no overjut. The design is similar to the Baltimore of 1851, which was the fastest of her day.

CAMPBELL & DICK.

DIRECT practical experiment in a laundry has proved to me A that the 'Ivory,' tested against a certain well known brand of "laundry soap, has the same amount of cleansing power and one and "two-thirds the lasting capacity. That is, the Ivory Soap will do one "and two-thirds times the work of the soap against which it was "tested. I therefore consider the Ivory a very good laundry soap." JOHN W. LANGLEY,

Professor of Chemistry, University of Michigan.

A WORD OF WARNING. There are many white soaps, each represented to be "just as good as the lvory";" they ARE NOT, but like all counterfeits, lack the peculiar and remarkable qualities of the genuine. Ask for "Ivory" Soap and insist upon getting it.
